BIBLIOGRAFIA DE ARTICULOS CONCERNIENTE A
VENEZUELA, COLOMBIA Y TRINIDAD
PUBLICADOS EN LOS BOLETINES DE LA AAPG

The following list is a bibliography of the articles that have been published in the bulletins of the AAPG on Venezuela, Colombia and Trinidad. The articles will be reprinted by the AAPG in the near future and will be placed on sale. The compilation of the bibliography was made primarily by J. Douglass, at the suggestion of VEPSA, and was later checked and revised by several others. The bibliography is being printed here so that the members of the Asociación may know what articles are available on the geology of Venezuela and the neighboring countries of Colombia and Trinidad.
